

With Tier 4 Engine installed

## **MOVING YOU FURTHER**

**HYUNDAI HEAVY INDUSTRIES** 

# **PRIDE AT WORK**

Hyundai Heavy Industries strives to build state-of-the art earthmoving equipment to give every operator maximum performance, optimal controllability, versatile machine settings and proven technology.

# Be proud of your work with Hyundai!

# Robert 25z-9AK

## **Machine Walk-Around**

#### **Engine Technology**

Proven, reliable, fuel efficient, low emission and low noise Kubota D1305 Tier 4 engine.

#### **Robust Upper and Lower Frame**

The structure of the upper frame is designed to absorb high stress and to resist inherent external influences. An X-type center frame and a reinforced box section track frame provide exceptional strength and longer service life to withstand tough working conditions.

#### **Control System**

Control devices are well located for increased operator's comfort and a higher productivity. A safety lever on the left side console is installed to prevent exiting the cabin with active hydraulic control levers.

#### **Advanced Hydraulic System**

The hydraulic system of the R25Z-9AK is designed for fast operation combined with high controllability.

#### **Comfortable and Durable Cabin**

The spacious cabin is ergonomically designed, with low noise level and high visibility. Canopy & cabin frame are complying with international standard TOPS, ROPS & FOPS, for maximum protection of the operator.

#### **Operator Convenience**

R25Z-9AK cabin equipped with a suspension seat, foldable pedals and various storage space for advanced operator comfort. The monitoring system displays warning indicators , water temperature gauge, fuel gauge and hour meter to check the full status of the machine at a single glance.

#### **Easy and Simple Maintenance**

With open access of doors, covers and engine hoods, air cleaner and centralized grease fittings the machine is a pleasure to maintain.

#### **Extended Life of Components**

Long-life hydraulic filters, long-life hydraulic oil, long-lasting shims and long-lasting bushes are reducing operation costs.

2/3

# PRECISION

Innovative hydraulic system technologies make the 9A series excavator fast, smooth and easy to control.

# Boom Swing

The R25Z-9AK's boom swing function is designed for efficient work in congested residential and urban areas. The boom can be offset left or right within an operating range.

# Easy to transport

The new R25Z-9AK can be moved on a small trailer, with a simple car driver's licence. No truck is required to easily transport the machine to a jobsite, and back to the yard.

# Dozer Blade

Large dozer blade provides added versatility, work efficiency and stability for the job.

# Zero-tail Swing

R25Z-9AK's short tail swing radius allows the operator work in confined areas like close to buildings on roadways, and in urban areas. This compact radius design provides easy and efficient operation in any limited space work environment.

# Lever Pattern Change Valve (option)

Joystick control pattern can be changed easily through a pattern change valve.

# PERFORMANCE

The 9A series excavators are offering optimal performance and maximum productivity.

# Cylinder Covers

Cylinders of boom and dozer blade are provided with covers for extra protection.

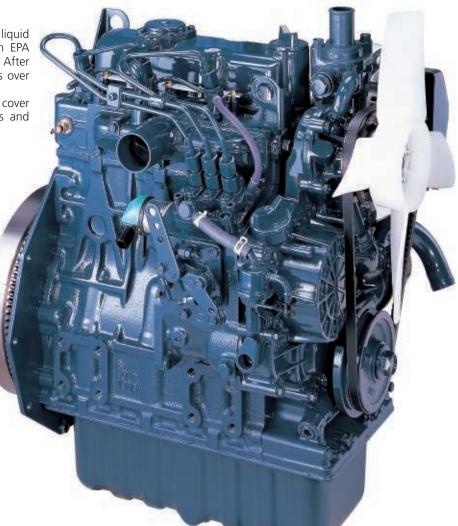

# Structural Strength

The R25Z-9AK cabin structure is designed with slimmer but stronger tubing for more safety and better visibility. Low-stress and high strength steel is welded to form a strong and stable lower frame. Structural durability is analyzed and tested by FEM-analysis (Finite Elements Method) and long-term durability tests.

# Kubota D1305

Emissions: The most compact multi-cylinder liquid cooled industrial diesel engines comply with EPA Tier 4 Emission regulations without additional After Treatment Tools. This engine meets standards over the NRTC and NTE requirements.

Lower Noise Level: The half-float valve cover and  ${\rm MoS}_2$  coated piston reduce noise levels and vibration.

# PREFERENCE

An operator, who sets his machine to his needs, takes pleasure in his work. Operators can fully customize their work environment and operating preferences to fit their individual needs.

\*Photo may include optional equipment.

#### Monitor

The monitoring system of the R25Z-9AK provides the operator with machine status information, including: engine oil pressure lamp, battery charge lamp, engine coolant temperature and a fuel gauge.

# Comfortable Operating Cabin

In a 9 series cabin, you can adjust the seat, console and armrests to suit your preferred comfort level.

- 1. The pedals (travel boom offset attachment) are installed in a convenient position and can be folded in to gain extra foot space.
- 2. Different sizes of cup holders.
- 3. Operator's belongings can be stored in a lockable storage box under the seat.
- 4. Armrests to increase operator's comfort.
- 5. Slidable front window can be opened easily and is kept safely in open position (cabin Type)

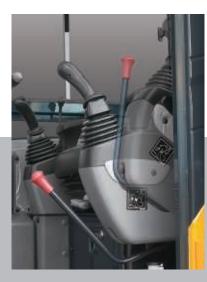

## Stressless

Work is stressful enough; your working environment should be stressless. Hyundai's R25Z-9AK provides improved cabin interior and additional storage space to minimize the stress of the operator.

# **Operator Comfort**

The left and right joysticks are ergonomically placed for convenient operation. The joysticks have enough space to install additional option switches. A safety lever is installed to prevent unexpected activation of the hydraulic attachments. When the safety lever is positioned upright, hydraulic functions are disengaged.

A tiltable left-side console make the operator easier to enter and exit the cab.

# PROFITABILITY

9A series machines are designed to maximize profitability through improved fuel efficiency, enhanced service features and long-lasting components.

\*Photo may include optional equipment.

Easy to Change Air Cleaner The R25Z-9AK is equipped with a durable plastic air cleaner, designed for easy maintenance.

# Centralized Grease Fittings

Centralized grease fittings for faster and easier maintenance.

# Selector Valve for Single or Double Acting Piping

Double Acting Pipe located on front of the Fuel Tank for easy to access and control.

Lever direction

Vertical : Single acting piping (Breaker) Horizontal : Double acting piping (clamshell)

# Easy Maintenance Access

The R25Z-9AK was built with accessibility in mind. All doors, covers and hoods are designed for full open accessibility. The R25Z-9AK offers plenty of space to complete regular maintenance.

# Proportional Auxiliary Hydraulic System

- Opt: Proportional Control Switch for better speed control
- Enlarge the Operation Convenience

# And the section of th

# Long-Life Components

9A series excavators were designed with bushings designed for long-life lube intervals (250 hrs) & polymer shims (wear resistant, noise reducing), long-life hydraulic filters (1,000hrs), long-life hydraulic oil (5,000hrs), more efficient cooling systems and integrated preheating systems which extend service intervals, minimize operating costs and reduce machine down time.

| Bucket                         | 55 x 420 mm (2.16" x 16.5") |  |  |
| Boom swing                     | 75 x 400 mm (3.0" x 15.7")  |  |  |
| Dozer blade                    | 85 x 140 mm (3.3" x 5.5")   |  |  |

#### **OPERATOR'S CAB**

| Noise Levels (dynamic value) |      |  |
|------------------------------|------|--|
| Outside cabin - LwA 94dB     |      |  |
| Inside cabin - LpA           | 75dB |  |

#### **COOLANT & LUBRICANT CAPACITY**

|                | liter | US gal | UK gal |
|----------------|-------|--------|--------|
| Fuel tank      | 30    | 7.9    | 6.6    |
| Engine coolant | 5.0   | 1.3    | 1.0    |
| Engine oil     | 5.9   | 1.6    | 1.3    |
| Hydraulic tank | 27    | 7.1    | 5.9    |

#### **TRAVEL LEVERS**

 $\label{eq:constraint} Traveling \ and \ steering: Two \ levers \ with \ foldable \ pedals.$ 

## HYDRAULIC CONTROLS

| Туре            |  |
|-----------------|--|
| Pilot control   | Two joysticks with one safety lever<br>(LH): Swing and arm,<br>(RH): Boom and bucket with horn (ISO) |
| Engine throttle | Mechanical, cable type   |

#### SWING SYSTEM

| Swing motor               | Axial piston motor       |  |
|---------------------------|--------------------------|--|
| Swing reduction           | Planetary gear reduction |  |
| Swing bearing lubrication | Grease-bathed            |  |
| Swing brake               | Wet disc                 |  |
| Swing speed               | 9.1 rpm                  |  |

#### **DRIVES & BRAKES**

| Max. travel speed (high) / (low) | 4.3 km/h / 2.4 km/h ((2.7 mph) / (1.6 mph)) |  |
|----------------------------------|---|--|
| Maximum traction force           | 2.4 ton                                     |  |
| Maximum gradeability             | 30°   |  |
| Parking brake                    | Wet disc                                    |  |

## **DIGGING FORCE (ISO)**

|                | 2,150 kgf         |  |
|----------------|-------------------|--|
| Bucket         | 21.1 kN           |  |
|                | 4,740 lbf         |  |
|                | 1,490 [1,310] kgf |  |
| Arm [Long Arm] | 14.6 [12.8] kN    |  |
|                | 3,280 [2,890] lbf |  |

#### **OPERATING WEIGHT (APPROXIMATE)**

Operating weight, including 1,945 mm (6'5") boom, 1,120 mm (3'8") arm, SAE heaped  $0.07 \text{ m}^3 (0.1 \text{ yd}^3)$  excavator bucket, lubricant, coolant, full fuel tank, full hydraulic tank and all standard equipments.

| Shoe Width       |        | Rubber shoe 250 mm (10")           |  |
|------------------|--------|------------------------------------|--|
| Operating Weight | Cabin  | 2,580 kg (5,690 lb)                |  |
|                  | Canopy | 2,430 kg (5,360 lb)                |  |
| Ground Pressure  | Cabin  | 0.32 kg/cm <sup>2</sup> (4.6 psi)  |  |
|                  | Canopy | 0.30 kg/cm <sup>2</sup> (4.34 psi) |  |

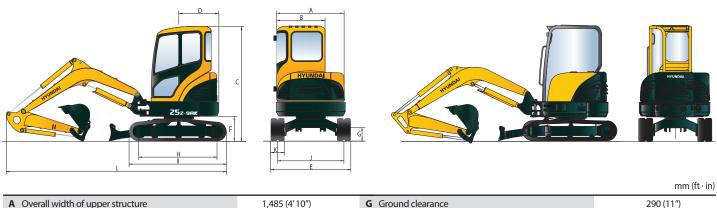

#### UNDERCARRIAGE

X-leg type center frame is integrally welded with reinforced box-section track frames. The undercarriage includes lubricated rollers, track adjusters with shock absorbing springs and sprockets and rubber shoes.

| Center frame                       | X-leg type          |  |
|------------------------------------|---------------------|--|
| Track frame                        | Pentagonal box type |  |
| No. of carrier roller on each side | 1                   |  |
| No. of track roller on each side   | 3                   |  |

1. Lifting capacity is based on SAE J1097, ISO 10567.

2. Lifting capacity of the Robex Series does not exceed 75% of the tipping load with the machine on firm, level ground or 87% of full hydraulic capacity.

3. The load point is a hook located on the back of the bucket.

4. (\*) indicates the load limited by hydraulic capacity.

1. Lifting capacity is based on SAE J1097, ISO 10567.

Lifting capacity of the Robex Series does not exceed 75% of the tipping load with the machine on firm, level ground or 87% of full hydraulic capacity. The load point is a hook located on the back of the bucket. 2.

3.

4. (\*) indicates the load limited by hydraulic capacity.
